

Storage options you **wood** love...

 **Eope Closet Concepts**  
Hanging Our Reputation on Quality Since 1993

# Hardwood Ventilated Shelving

Our **premium ventilated wood shelving** is not just wood, it's **solid hardwood**. Our wood of choice is domestic Ash hardwood. This species is preferred due to its strength, density, coloring and beautiful grain patterns. Ventilated shelving is designed to bring you all the strength of solid shelving with all the function of ventilated storage.

We combine contemporary style and functional design with the warm tradition of real wood.

Strength

Durability

Beauty

**Solid shelving** is made of hardwood veneer plywood with Ash hardwood front and back rail. Plywood is stronger and lighter weight than MDF; it has greater moisture resistance and a natural wood grain.

Our solid shelving is also available without the back rail. ST shelving may be used with Cope hardware or combined with other brands of metal hardware for a fast and easy install.

Solid Top Shelving

Expand your storage options with our **real wood closet cabinetry**. Our wide array of closet organizers allows you to choose the options that will best suit your unique storage needs. Add quality 3/4" plywood closet cabinetry to hardwood shelving designs to easily create a custom closet.

# Closet Cabinetry

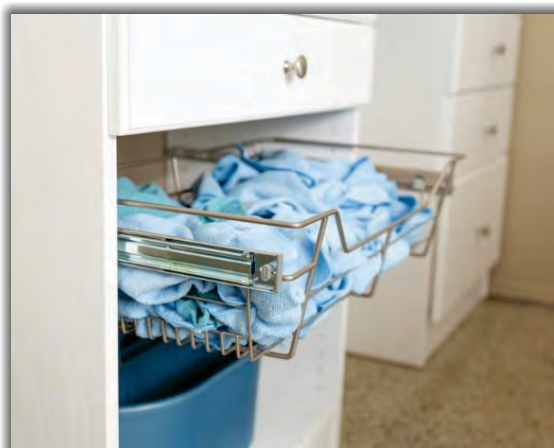

Be creative with our **adjustable kits**. Adjustable kits allow you to create unique storage space. Begin with an empty structure and add the options that match your storage needs.

- Ventilated or tower shelving
- 18", 24", & 30" widths, 14" deep
- Traditional tower drawers
- Wire basket option

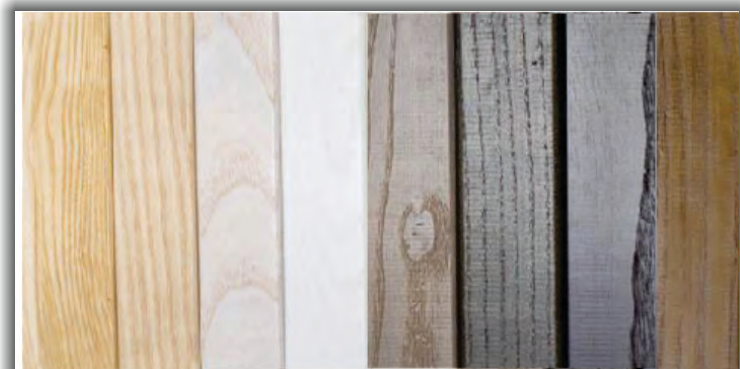

Adjustable Kits

**Hardware**  
**Strong, user-friendly installation hardware** for ventilated and solid shelving is designed for speedy professional installations. Template friendly hardware is available in two styles and four colors. Made in the USA.

**Quality Parts**  
**Component parts** are designed to obtain maximum yield from the lumber we purchase. From 12-foot shelving to 3-inch connectors, we do our best to use it all! Environmental responsibility and less waste for us.

**Eight Durable Finishes**  
Natural • Frost • Pearl  
Picket Fence • Driftwood  
Walnut • Mahogany  
Nutmeg

Cater to your builders needs with 3D design & Cope's strong, effective model home program.
